Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Richmond et al Us Patent 5,067,964.

Richmond et al discloses an implant comprising two biocompatible materials having a first polymeric component and a second polymeric component wherein the chain length of one of the polymeric material is longer than the other because they are different materials (see col. 3, lines 36-42).

Allowable Subject Matter

Claims 2, 3, 5-14, 16-53 and 56-57 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
